PRODUCT DETAILS

4D ARMREST

Lifting, moving forward and backward, moving at an angle, moving left and right, through adjustment, it can adapt to the support of the arm in different body shapes and different postures.

SOFT CUSHION

High resilience qualitative sponge filling, long-term sitting without deformation. Surrounding the buttocks, breathable and refreshing, delicate and soft, skin-friendly and healthy.

ITALIN DONATI CHASSIS

Tilt the chassis in its original position and lock it with one button. Safe and explosion-proof, up and down, stable and reliable; Korea KGS 4 level (nitriding treatment) air pressure rod.

PRODUCT FUNCTION

Headrest up and down adjusted

Up and down back and front surface angle adjusted
Outside enlarge adjusted

Waist up and down adjusted

Tightness six levels adjusted
Mechanism three position locked
Seat height back and front adjusted
